RESUME SUMMARY

Software Developer with 1 year 8 months of experience developing enterprise web applications using Laravel, PHP, MySQL, and JavaScript, with hands-on experience in Python and FastAPI. Experienced in leading teams and delivering HRMS, Insurance Management, and business management applications. Skilled in backend development, database design, REST APIs, role-based access control, deployment, and production support.

HARD SKILLS

Languages: Python, HTML5, CSS, Javascript, PHP

Frameworks & Libraries: FastAPI, Laravel, Bootstrap, jQuery, React.js

Backend Development: REST API Development, Role-Based Access Control (RBAC), Authentication & Authorization, CRUD Operations

Database: MySQL, PostgreSQL, Database Design

Hosting & Deployment: cPanel, IONOS, Website Deployment, Database Migration, Bug Fixing, Production Support

AI Development Tools: ChatGPT, Claude AI, Antigravity, Codex, GitHub Copilot

Tools: Git, GitHub, Postman, VS Code, Docker, cPanel

SOFT SKILLS

Team Collaboration, Problem Solving, Communication, Leadership

WORK EXPERIENCE

Software Developer - Tecla Media - Jan 2025 – Aug 2026

- Started as an intern and converted to a full-time Software Developer based on performance.
- Developed and maintained web applications using Laravel, PHP, Python, FastAPI, MySQL, and JavaScript.
- Worked on HRMS, Insurance Management, and Jewellery Management projects.
- Worked on client projects, testing, deployment, bug fixing, and production support.
- Managed hosting and database operations using cPanel.
- Participated in requirement analysis, module integration, and project coordination.

Software Developer Intern - Tecla Media - Oct 2024 – Dec 2024

- Worked on Laravel-based enterprise web applications.
- Worked on database operations, testing, debugging, and bug fixing.
- Gained hands-on experience in Laravel, PHP, MySQL, and JavaScript.

Web Development Intern - Duskcoder Technosoft Corp - Jan 2024 – Mar 2024

- Learned and implemented web development concepts using HTML, CSS, JavaScript.
- Developed static websites and practiced responsive UI development.
- Gained practical experience in web application development and database management.

PROJECTS

Project Management System

Technologies: Python, FastAPI, React, PostgreSQL, SQLAlchemy, JWT

- Developed a universal work management system for managing clients, services, employees, projects, and tasks.
- Implemented JWT-based authentication, role-based access, task assignment, status management, and employee management.
- Built task time tracking with multiple attempts, break/resume tracking, comments, notifications, attachments, and reports.
- Deployed the application using Render and Neon PostgreSQL with a responsive React frontend.

Insurance Management System

Technologies: Laravel, PHP, MySQL, Bootstrap

- Developed an Insurance Policy Management System for managing companies, policies, agents, and employees.
- Implemented role-based access control and customizable policy creation.
- Developed reports for policies, commissions, and employee performance.
- Created dashboards with key metrics such as policies, premiums, and agent performance.

HRMS (Human Resource Management System)

Technologies: Laravel, PHP, MySQL, Bootstrap

- Developed a Human Resource Management System to manage core HR operations.
- Worked on Employee Management, Attendance, Leave Management, and Payroll modules.
- Developed Training, Asset Management, and Ticket Management modules.
- Implemented role-based access control for Admin, HR, and Employee users.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science and Engineering

IFET College of Engineering, Villupuram (2020 – 2024)

CGPA: 8.08 / 10

Higher Secondary Certificate (2020)

Percentage: 69.7%

Secondary School Leaving Certificate (2018)

Percentage: 84.6%

CERTIFICATIONS

Full Stack Web Development – [Dr. APJ Dream Tech]

Python for beginners (Great Learning)

CCNA - Cisco Certified Network Associate

Introduction to Packet Tracer

Introduction to Cybersecurity
